

## VICTORY CLAIM MADE BY FRENCH

Southeastern Spur of Notre Dame de Lorette Carried By Bayonet—General Headquarters Attacked.

PARIS, April 16.—The following official statement was issued last night: "North of Arras we have won a brilliant success which completes that of last month. All of the southeastern spur of Notre Dame de Lorette has been carried at the bayonet's point by our troops who now hold all the slopes to the southeast as far as the borders of Alain St. Nazaire. We took 180 prisoners including several officers and captured three mortars and two machine guns.

"At Thiepval and La Boisselle in the region of Albert, the enemy undertook two attacks which were immediately arrested.

"In the Argonne, at Bagatelle, our artillery demolished the principal German trench. Further east, at Les Neuillies, we repulsed an attack.

"At Les Eparges the Germans counter-attacked three times Wednesday night with the object of retaking the eastern salient. They were repulsed, suffering heavy losses. At noon today they violently bombarded the position, but did not attack with infantry.

"In the Mortmare woods we repulsed a counter attack and followed up the gains which we made on the 12th. The inventory of our booty includes two quick firing guns, two mortars, one machine gun, several hundred rifles and thousands of cartridges and grenades.

"In the forest of Le Pretre we repulsed an attack and made some prisoners.

"A German aviator has dropped bombs on the hospital of Mourmeton. "In reprisal for the bombardment of Nancy by a Zeppelin, one of our aeroplanes dropped five bombs on the German headquarters. All the projectiles fell on the building at Mezier where the imperial general staff is installed. We have also bombarded the railway station of Freiburg in Baden.

"Finally an air squadron of 15 machines has thrown bombs with complete success on the German military buildings at Ostend. The aeroplanes were violently shelled, but all returned uninjured."

### JOHNNY BUNNY IS ILL

Famous Movie Picture Actor Suffers a Breakdown.

NEW YORK, April 16.—Johnny Bunny, one of the best known comedians in the motion picture world, is critically ill at his home in Flat B, Brooklyn. He suffered a breakdown two weeks ago and Wednesday night took a turn for the worse.

### GIVES OUT LIST OF LOST

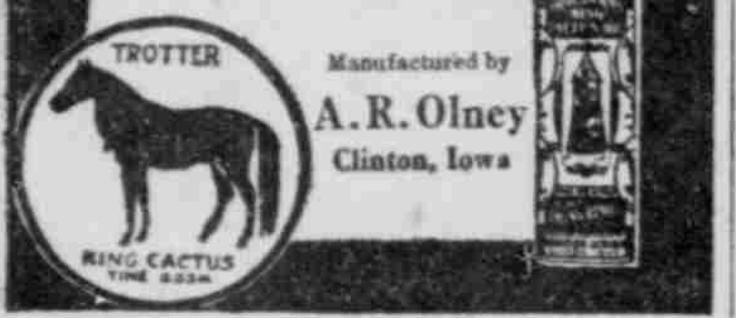

LONDON, April 16.—Total British casualties among the troops up to April 11 were 139,347, under Sec'y of War Tennant announced in parliament Thursday afternoon. This includes killed, wounded and missing.

## An Easy Way to Increase Weight

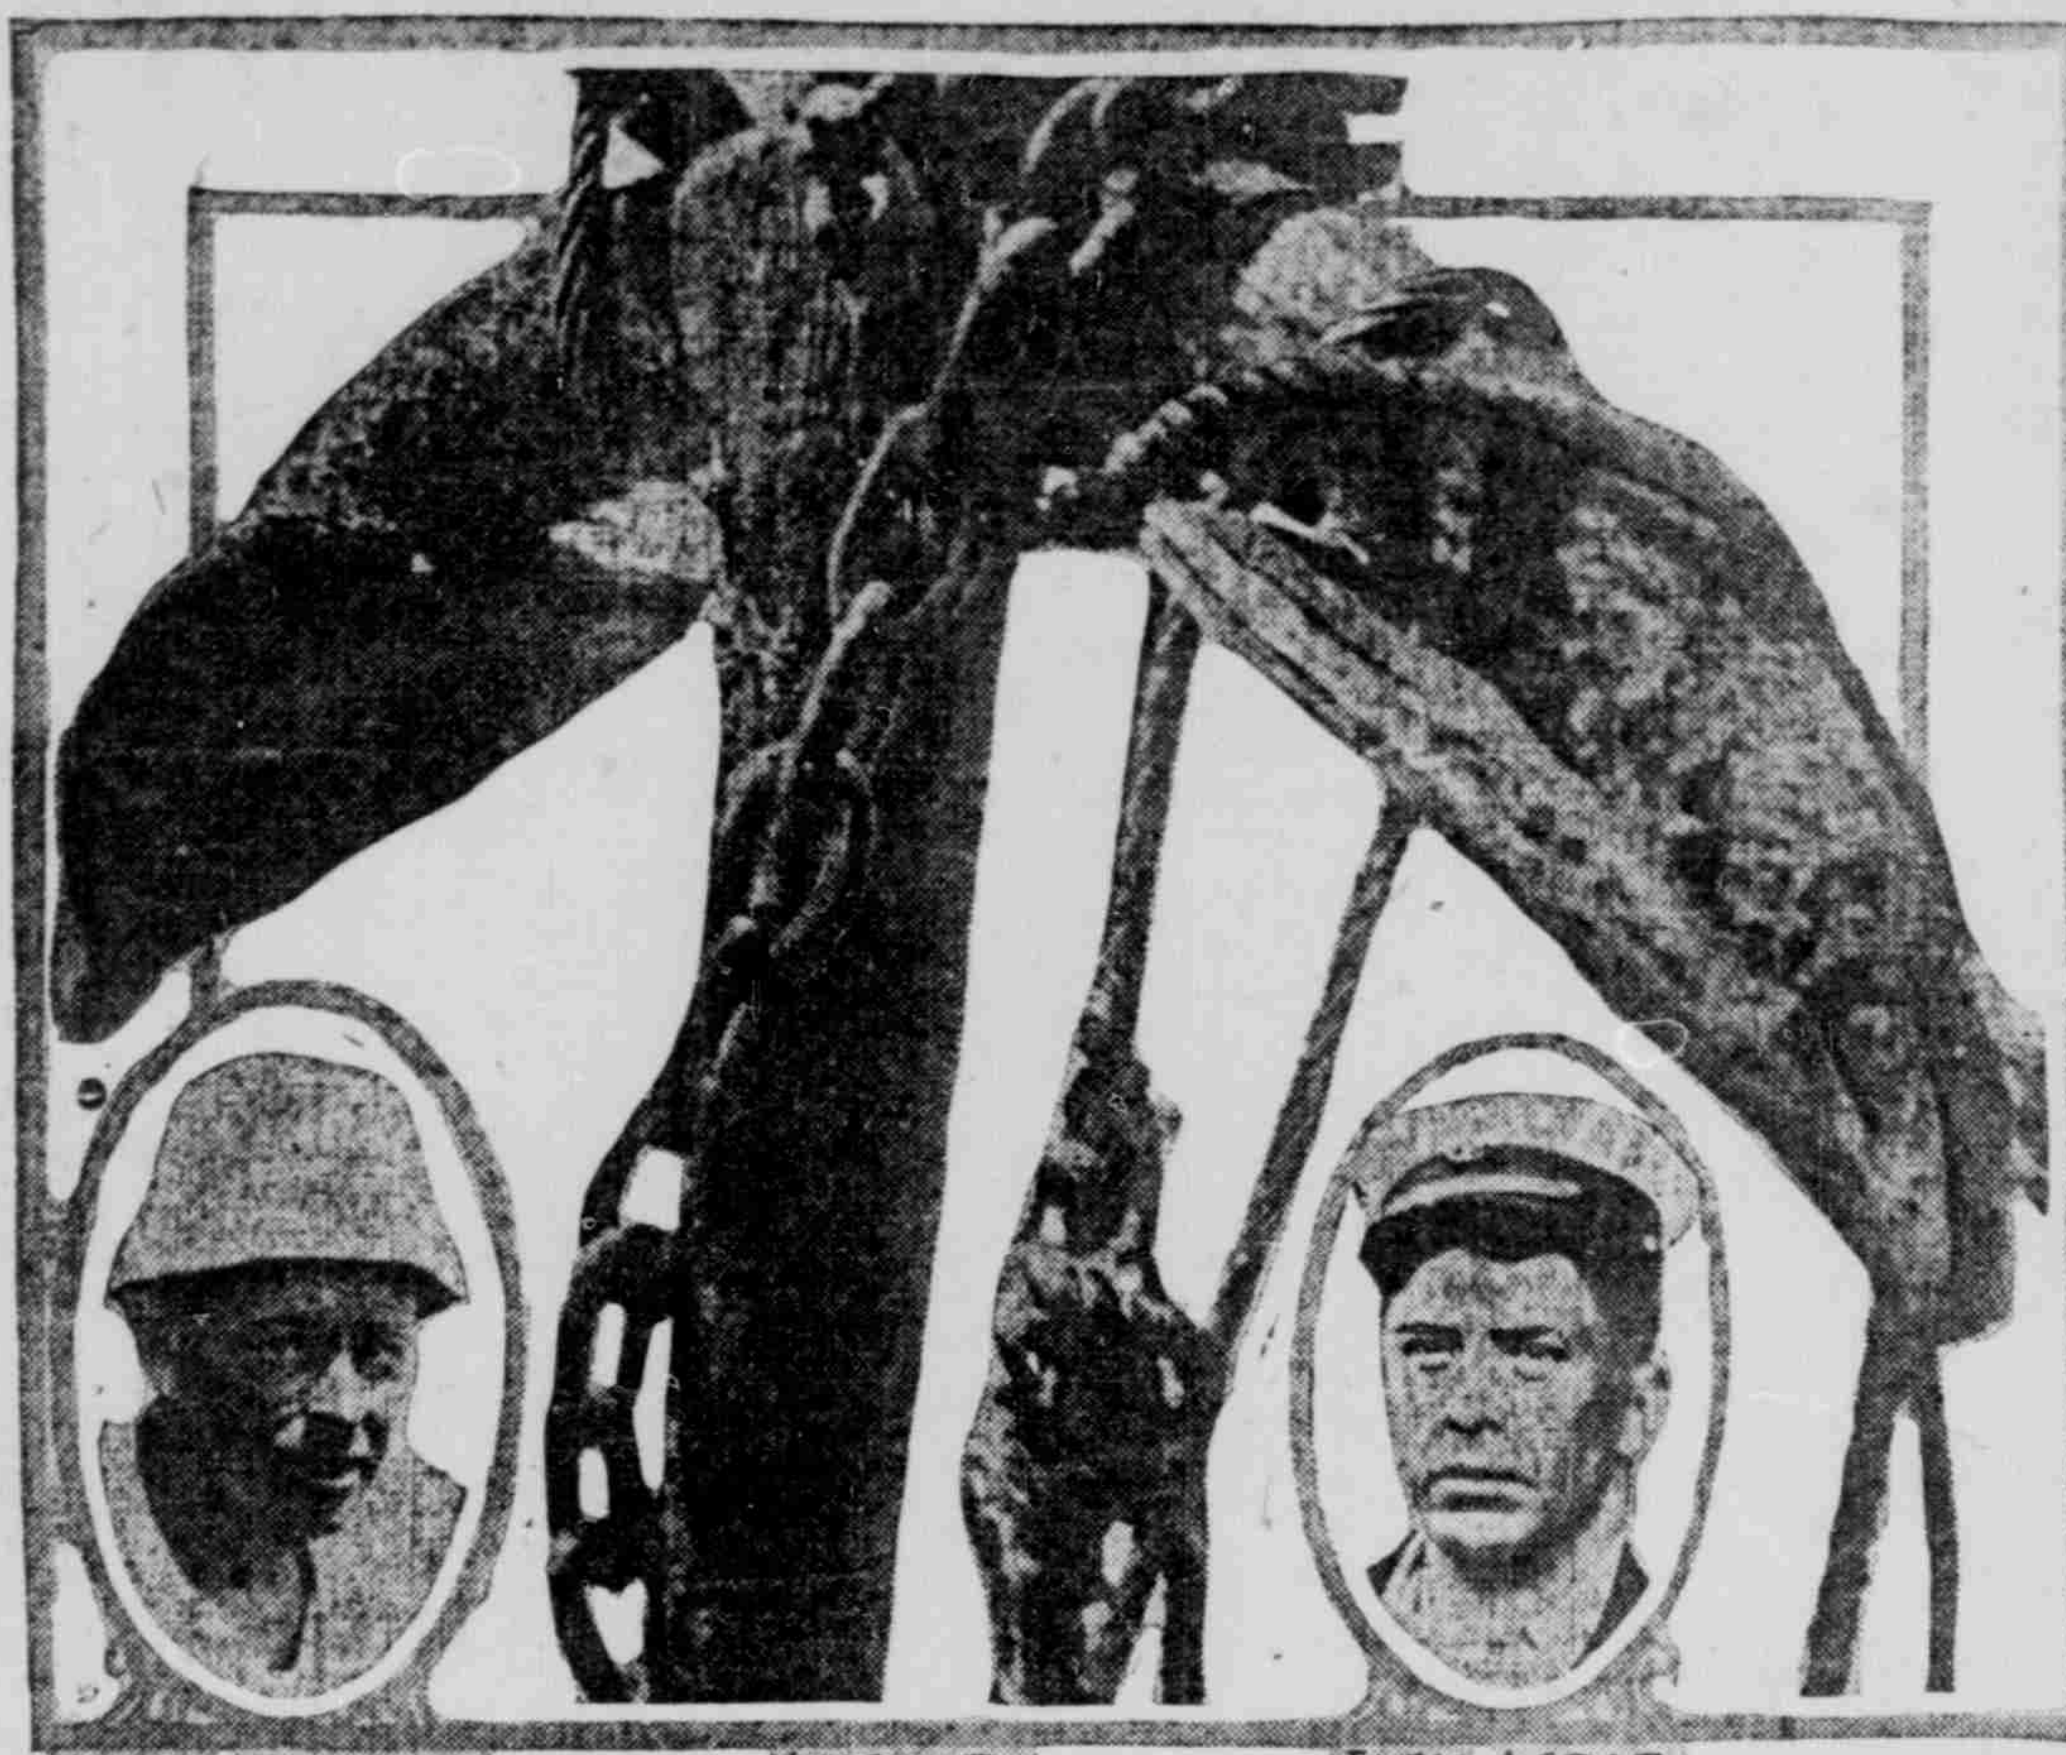

### Good Advice for Thin Folks

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "diet" creams or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine in a simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its re-generative, reconstructive powers to coat the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. All leading druggists of South Bend and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution:—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by those who do not wish to gain ten pounds or more.

## What They Got In Hunt for Lost F-4

JAMES HOGGETT. ANCHOR. JACK AGRAZ.

The photograph shows Jack Agraz, chief petty officer, United States navy, who established a record dive at Honolulu harbor in searching for the missing submarine F-4 when he descended 215 feet without a diving suit and wearing only a helmet.

James Hoggett, sole survivor of the crew of the F-4 is also shown. Hoggett was ashore on leave when the F-4 made her fatal trip, and is now with the party searching for the craft.

The anchor of the old steamship Hongkong Maru, which was lost in this harbor, is shown in the picture. The salvage vessels brought the anchor to the surface with grappling irons, in the belief they had the lost submarine.

### UNIVERSITY NEWS LETTERS

#### INDIANA UNIVERSITY.

The position of alumni secretary which was created by the adoption of the new constitution of the Alumni association has been filled by the appointment of Ralph V. Sollitt, '10, of Peru. Mr. Sollitt was one of the honor men of his class and was also elected to Phi Beta Kappa. In 1911 he received the degree LL. B. from the university, and until his appointment practiced law in his home town. The selection of the Alumni society was left to a committee of the alumni council. After careful consideration of a number of persons whose names had been suggested, it was the unanimous opinion of this committee that Mr. Sollitt possessed in largest measure the varied qualifications needed for filling this difficult position. As alumni secretary Mr. Sollitt will have an office both in Bloomington and in Indianapolis. In the latter which follows he sets forth the ideas with which he undertakes his duties. "To the Alumni and Former Students of Indiana University:

"The Alumni association is composed not only of those who have received degrees, but also of those who have received any part of their educational training at Indiana university. In the past the university has always welcomed the cooperation of its alumni. In a larger way than ever before it now provides for their participation in its affairs, for it furnishes the machinery to make effective the work of the alumni. First, was established the alumni council, then the Alumni Quarterly, and now the alumni secretary, who is to serve the local associations and aid them in their work. In taking up the duties of the latter office, I shall do all in my power to further not only the interests of the university, but also the best interests of the several communities of the state.

"Back of all that we plan and do as alumni must ever stand the ideal of service—of real service to the university in strengthening her traditions, in deepening our loyalty to her, in maintaining the college spirit we felt in school days, in bringing the sons and daughters of the university to think of the problems of the university and how they can best further the work to which she is committed. In causing her to serve in the best possible way the state which endows her with life. Nor must any of the activities of the alumni movement be carried on in a selfish spirit, seeking to obtain advantage over another college or university. Rather must we engage in generous cooperation with the alumni of other institutions on the common problems that confront us.

"To the end that the alumni movement may be of the greatest service there must be:

"1. An accurate register of all alumni and former students, giving necessary information as to addresses, occupations, and achievements.

"2. A carefully planned organization of the alumni and former students in the various local associations, on a self-sustaining basis.

"3. With the assistance of the local associations a study of the needs of each community should be made, so that the local associations may draw upon the university for community help.

"4. Information concerning the work of the university and of each of its several departments should be brought to the local associations, so that the suggestions and criticisms of the alumni and former students may be carried back to the university. In this way the alumni will feel in a larger way a responsibility for the work of the institution.

"5. An increased circulation should be obtained for the magazine of the alumni—the Alumni quarterly—and an enlargement of its sphere of influence.

"6. The facilities for employment and promotion should be extended so that alumni and former students may be brought more directly in touch with opportunities for advancement.

"7. A deep interest should be aroused in furthering the extension work of the university.

"All these activities will demand of each son and daughter of the university a personal sense of loyalty—not only the loyalty that has been manifested in times of crises, but the everyday loyalty which causes each

one to think and plan and work with his fellows in rendering service to his alma mater. If we show this loyalty we shall do no more than our duty and no more than is deserved by our university and by our state.

"Ralph V. Sollitt, Alumni Sec'y."

### HAINES CASH MARKET

For Quality and Service Call

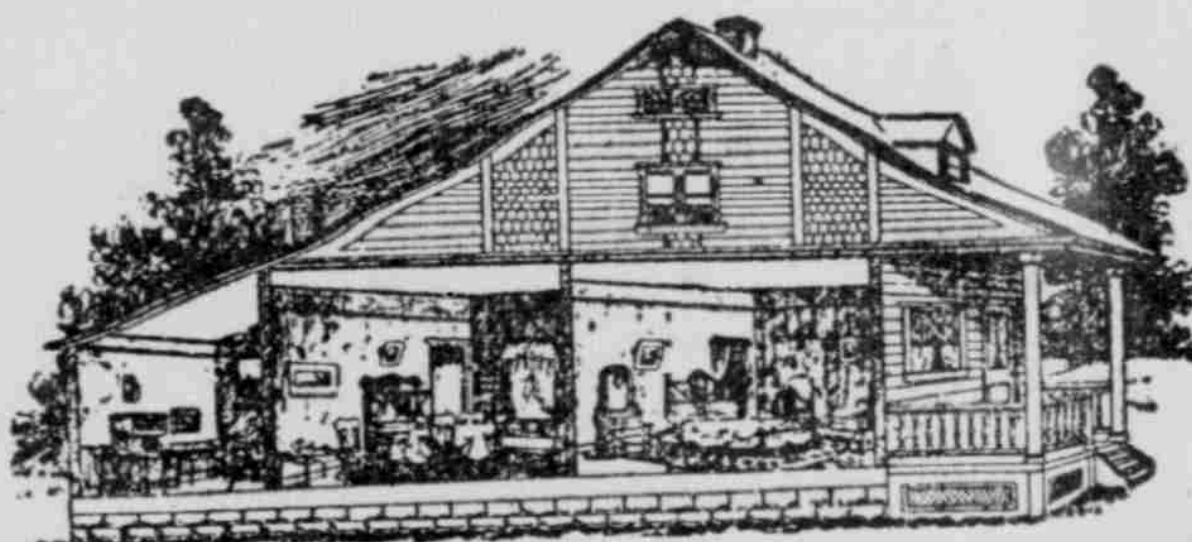

237 E. Dubail Ave.

Bell Phone 771.

## —You Can Place Absolute Dependence in Sailors Bros.' Ability to Make Your Home All That You Desire It to Be!

—You want to be proud of your home—to have your friend compliment you upon the excellence of your taste and judgment in the selection of its furnishings; you want your home to be comfortable, attractive and beautiful; you want the utmost in quality and style that your money will buy.

—It is of the greatest importance that you place your dependence upon THAT establishment, BEST equipped to FULLY SATISFY all the many and varied demand which enter into complete home outfitting; that establishment is SAILORS—the house of complete and efficient home-furnishing service.

### FOUR ROOM OUTFITS

\$129.00

## FREE! 500 LBS. VACUUM ICE WITH EVERY REFRIGERATOR.

Terms—\$1.00 a Week

10% Discount Allowed for Cash With Order

### Vacuum Ice!

This ice, formed by accretion, is necessarily white, but is not "snow ice," being heavier and denser than any other ice. What can be purer than ice formed from sterilized drinking water?

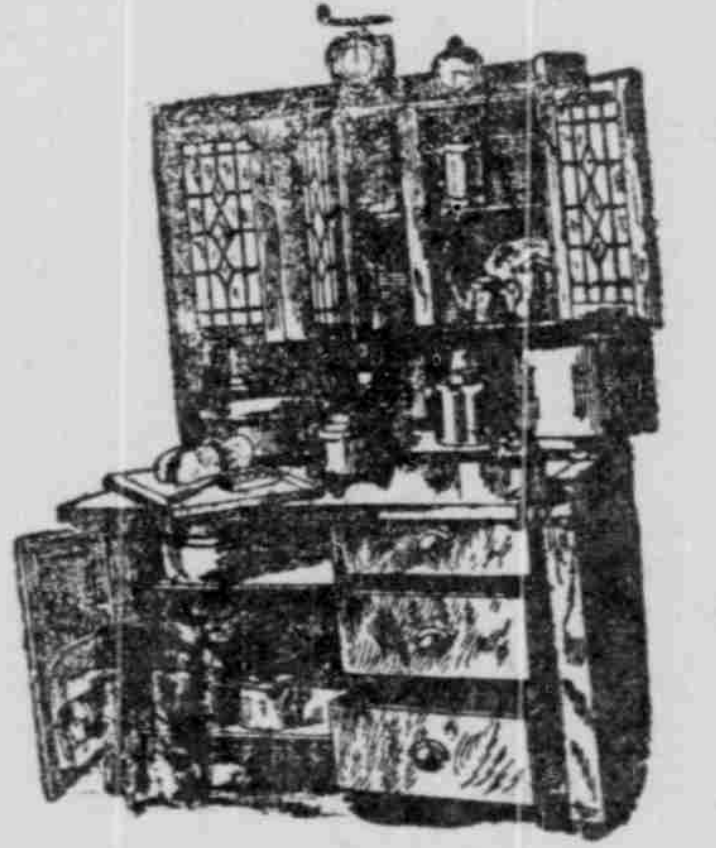

### Sailors' DeLuxe Refrigerators

The person buying a refrigerator should not be misguided by the impression that all refrigerators are alike. This is an error which has proved costly to thousands of people—improperly constructed refrigerators not only are unsanitary, but are very expensive. Inasmuch as they fail in the purpose for which they are intended.

Our DeLuxe refrigerators contain all important features that is necessary to make a good sanitary and ice saving refrigerator—we have 35 patterns—all sizes from \$7.85 to \$65.00. Liberal Terms.

The ice formed in this vacuum contains instead of air bubbles, small vacuum cells between the particles of ice, as there is no air in the chamber where the ice is frozen. This prevents the heat from penetrating the ice and consequently the ice will not melt quite so fast as other ice. This is a very desirable feature in many cases and where it is difficult to cool a box at a reasonable expense. Where a refrigerator is so well insulated that it will not melt a solid block of ice fast enough to cool it, the only thing necessary is to split the ice into several pieces with an ice pick and thus give more surface to it.

Vacuum Ice contains a small amount of lime which is found in the arctic water and which is a good box purifier, and instead of leaving a filthy deposit in the refrigerator, will have a tendency to sweeten and purify it.

### Solid Oak Kitchen Cabinet, \$10.75

This Cabinet is made of solid oak, has white enameled interior, sliding metal top, glass sugar bin, tilting flour bin; a very good value at the price. Other splendid cabinets, \$14.85, \$18.50, \$19.85, \$21.85 and up.

### ACCOMMODATING CREDIT PRIVILEGE FREELY OFFERED

This pretty Colonial Table is made of hard wood—can be had in either mahogany or golden oak finish—has heavy scroll legs—opening drawer, top is 24x42 inches a good \$18.50 value, our special price \$13.95

## "SOMETHING FOR NOTHING"

DEAR MADAM:—Last week we asked you to decide this question for yourself: When you buy a Nemo that you know is a big value simply as a corset, and receive hygienic features worth at least as much more without a penny of added cost—are you not getting SOMETHING, of great value to you, for NOTHING?

We are sure your answer will be "yes," though probably the idea never occurred to you before. Now that we've mentioned it, don't you think that all "wise women" should seek a good store where Nemo Corsets are handled intelligently, and solve their corset-problems by the Nemo method?

The value of Nemo hygienic features cannot be expressed in dollars or in words; nor are they of equal value to all women. To some they only mean better style and increased comfort; to others they mean freedom from pain and illness—in some cases the preservation of life itself.

### A Favorite for Over Ten Years

Nemo Self-Reducing Corset, No. 403, was introduced in 1904. Always a favorite, it sells faster to-day than ever. It suits a certain type of full figure better than any other corset. It has the Nemo "bridge" (diagram 5), and the Nemo Lastcurve-Back (diagram 1), same as No. 322, described last week; also the Improved Nemo Relief Bands (diagram 2), which give excellent abdominal support and reduction with greatest comfort, being now composed largely of semi-elastic Lasticope Webbing. No. 403 is best adapted to a full figure with flesh evenly distributed. Medium bust, long skirt—the "Military Shape." Pine coutil or batiste, sizes 22 to 36—\$4.00. (Also in extra sizes, up to 44, at \$6.00.)

Don't Think of Nemos as "Just Corsets" They are in a class alone, secure from competition. They do things for you that no other corsets can do. They combine splendid style and complete comfort with real economy. Next week we'll tell you more about this "SOMETHING for NOTHING."

Sold Everywhere. Nemo Hygienic-Fashion Institute, New York.
